Dictation (spelling, punctuation, etc.)	100	50
Arithmetic (the whole)	240	160
Mensuration (*a*) (the whole)	60	30

(*b*) "Book-keeping," by Ball and Hamilton
"Book-keeping by double and single entry," by W Inglis (Chambers' Educational Course)

1. The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in June. The examination will be conducted either at the College, or by an Accountant-General (including Government Examiner of Railway Accounts and Examiner of Accounts, Lower Ganges Bridge Project), in Bengal, Eastern Bengal and Assam and Burma only. The examination will be *ipso facto* vitiated if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements with the candidates in regard to the *place* and *hour* of examination.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship, if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

*This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government

2. The candidate should apply to an Accountant-General not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates and registration form duly filled in, and must be forwarded by him, not direct to the Principal, but through the Accountant-General.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned:—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age, baptismal or of birth (not required, if the candidate is already in permanent Government employ).

(3) Certificate that the application is in the candidate's hand-writing.

(4) Registration statement containing the following information:—

(*a*) Name in full.

(*b*) Father's name.

(*c*) Nationality or class, *i.e.*, European, Anglo-Indian or Indian, of candidate; and, if Indian, caste or tribe.

(*d*) Date of birth.

(*e*) Place of birth.

(*f*) Present address.

(*g*) Examinations passed.

(*h*) Thumb mark of candidate, left hand, (to be made in the presence of a responsible person who knows candidate.

(*i*) Signature and address of above-mentioned witness.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Accountant-General (including Government Examiner of Railway Accounts and Examiner of Accounts, Lower Ganges Bridge Project), qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Accountant-General concerned or at the College

It will rest with the Accountant-General (including Government Examiner of Railway Accounts and Examiner of Accounts, Lower Ganges Bridge Project) to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination, or whether his application should be rejected. The Accountant-General or the other officers referred to will then forward to the Principal, for registration, the names of the accepted candidates, together with their registration statements, which should be signed by the Accountant-General. The registration statements should be carefully preserved by the Principal. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College, or at the office of the Accountant-General. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that, in making appointments, preference will be given to qualified persons who are already employed in the Department.

7. Passed candidates should apply, not to the Principal of the College, nor to the Comptroller-General, but direct to the Accountant-General or Government Examiner of Railway Accounts in the province or railway under whom they may desire to be employed.

8. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

9. Candidates for the 4th grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination of the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Comptroller and Auditor-General.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College not later than 30 days previous to the examination; the application to be accompanied by the fee of rupees ten, and the Registration statement prescribed in rule 2 (f).

DEPARTMENT OF AGRICULTURE, BENGAL.

FORECAST OF THE RABI CROPS OF BENGAL, 1911-12.

[On an average of the five years ending 1909-10, the area under summer rice, which is included in this forecast in the territory to which it relates, represents about 0·2 per cent. of the total area under rice in British India.]

Explanatory.—The crops dealt with in the present forecast are the spring crops, such as summer rice, barley, gram, tobacco, poppy and other food and non-food crops which are harvested between February and April. In these food and non-food crops are included *rahar*, *kalai*, *mug*, peas, lentils, *khesari*, *kulthi*, buck wheat, *cheena*, potatoes, yams, melons, chillies and other spices as well as oats and vegetables.

Bihar is the chief *rabi*-growing tract, but *rabi* crops are important also in Burdwan, Midnapore, Cuttack, Ranchi, Palamau, Singhbhum and in all the districts of the Presidency Division, 24-Parganas excepted.

Character of the season.—The rainfall in September and October was general and sufficient for sowings of the crop in normal time. The rainfall in November was general over the Province, the fall being in excess of the normal in Bihar and especially in Chota Nagpur, but below normal in Orissa and most districts of Lower Bengal. A dry December followed. The rainfall in January was below the normal in all districts, except in Champaran, where it was in slight excess. In February it was below the average in all the districts of Bihar and Bengal Proper, except Midnapore, Howrah and the 24-Parganas. In Orissa and Chota Nagpur it was in excess of the normal. except in Hazaribagh and Palamau, where the fall was slightly below the normal. On the whole the season has been very favourable this year for these crops.

Area sown.—The normal area under the different *rabi* crops in the Province dealt with in the forecast is now estimated at 8,288,800 acres. The area actually sown this year is reported to be 7,326,900 acres against 7,221,300 acres of last year.

Outturn.—The estimated percentage of outturn in the twenty-one districts where the crop is most important is as follows :—

Saran 133, Muzaffarpur 116, Champaran 108, Burdwan and Gaya 104. Shahabad, Bhagalpur, the Sonthal Parganas and Singhbhum 100, Ranchi 99, Patna and Khulna 97, Palamau 95, Darbhanga 94, Jessore 81, Murshidabad 80, Monghyr and Midnapore 77, Purnea 75, Cuttack 70 and Nadia 63.

According to the District Officers' estimates the outturn of the different kinds of *rabi* crops for the Province as a whole works out to 99 per cent. of the normal ; but in consideration of the favourable weather conditions it appears that the total crop will be not less than 105 per cent. of the normal.

Accepting 105 per cent. as the outturn of the summer rice crop, the gross yield for the Province works out to 1,172,600 cwts. against 1,089,600 cwts. of last year.

Director of Agriculture, Bengal.

The examination will be *ipso facto* vitiated if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements with the candidates in regard to the *place* and *hour* of examination.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship, if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

*This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government

2. The candidate should apply to an Accountant-General not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates and registration form duly filled in, and must be forwarded by him, not direct to the Principal, but through the Accountant-General.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

It will rest with the Accountant-General (including Government Examiner of Railway Accounts and Examiner of Accounts, Lower Ganges Bridge Project) to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination, or whether his application should be rejected. The Accountant-General or the other officers referred to will then forward to the Principal, for registration, the names of the accepted candidates, together with their registration statements, which should be signed by the Accountant-General. The registration statements should be carefully preserved by the Principal. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College, or at the office of the Accountant-General. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that, in making appointments, preference will be given to qualified persons who are already employed in the Department.

7. Passed candidates should apply, not to the Principal of the College, nor to the Comptroller-General, but direct to the Accountant-General or Government Examiner of Railway Accounts in the province or railway under whom they may desire to be employed.

PART IV.—INSPECTION OF VESSELS.

9. Whenever the Health Officer receives the notice referred to in regulation 4, he shall without unnecessary delay proceed on board and examine the vessel, and the master shall give him every facility for the examination of the passengers, crew, personal effects, cargo, and any part of the ship the Health Officer thinks necessary. The Health Officer may require a declaration on oath from the medical officer if any) of the vessel or from the master or from both, whether any death or sickness from an unknown or suspicious cause or any case of any of the diseases enumerated in the preamble has occurred on board the vessel either during the voyage or before her departure, and with reference to plague, whether any unusual mortality has been observed among rats. If the Health Officer is satisfied that such deaths as may have occurred were not due to any of the causes enumerated in the preamble, he shall permit the vessel to proceed to anchorage and to discharge passengers and cargo without any further restrictions. If he is not so satisfied, he shall proceed as provided in these regulations. The inspection by the Health Officer will ordinarily take place between sunrise and sunset.

10. As a result of every inspection the Health Officer shall classify the vessel as infected, suspected or healthy, *in accordance with the definitions given in Part I.*

11. On the completion of the inspection prescribed by regulation 9, such of the passengers and crew as *have been detained under regulation 6 (a) but who* are found to be free from any of the diseases in question and unlikely to carry infection shall be allowed to land. All baggage, personal effects and cargo, except such articles as the Health Officer is entitled to disinfect, may also be landed.

12. If a case of any of the diseases enumerated in the preamble occurs on any vessel after she has entered dock or has been moored at a wharf, the master shall forthwith cause information thereof to be given to the dock master or Superintendent of the wharf, who shall communicate the information to the Health Officer (through the Port Officer) and to the Superintendent of Police (*in the case of a Presidency town the Commissioner of Police*) and shall be responsible that the sick person shall be isolated as much as possible, and that free communication with the wharf is stopped until the Health Officer has inspected the vessel.

PART V.—REMOVAL OF THE SICK.

13. When on inspection the Health Officer considers it necessary in order to prevent the spread of disease, he shall take the measures indicated in Part VI of these rules, as the case may be.

14. Except as provided for under regulation 19 (2) the removal of *sick* passengers is not to be enforced in the case of persons bound for an onward port unless under the clearest necessity, and in every such case a special report explaining the reasons for the action taken must be submitted by the Health Officer to the local Government.

15. The Port Health Officer shall inform the Municipal Health Officer in all cases in which he arranges for the conveyance of a patient to a sanitarium or hospital or other place within municipal limits, and shall furnish the Municipal Health Officer with the address of any private residence to which he permits the removal of a patient.

16. Where small-pox is the disease on account of which the vessel is deemed to be infected, the Health Officer shall offer, without charge, vaccination or revaccination to all persons willing to be operated upon, and shall cause to be vaccinated, if their guardians or those in charge of them consent,

all children below 10 years and over 6 months of age who do not bear marks of vaccination or of small-pox. In the case of plague inoculation may similarly be offered free of charge to all willing to be inoculated.

PART VI.—MEASURES TO BE TAKEN IN THE CASE OF HEALTHY, INFECTED, AND SUSPECTED VESSELS.

17. Vessels classed by the Health Officer after inspection as healthy shall be given free pratique.

PART VI-A.—SMALL-POX, CHICKEN-POX, MEASLES, AND CHOLERA.

18. In the event of a vessel being classed either as infected or suspected on account of any of the abovementioned diseases, the Health Officer—

(1) shall not enforce the removal from the vessel of any person or persons bound for an onward port unless under the clearest necessity as provided for in regulation *14;*

(2) may arrange for the conveyance of any person suffering or suspected to be suffering from such disease to a sanitarium or hospital, unless the sick person or his friends can make adequate provision elsewhere of which the Health Officer must satisfy himself;

(3) shall either himself undertake, or direct the master of the vessel to undertake, the destruction or disinfection of all clothing, bedding and other articles of personal use which have been used by any person suffering from any of the above-mentioned diseases, and are or are likely to have been soiled with infective matter or to retain infection;

(4) may, when a vessel with one or more of the above-mentioned diseases on board has passengers or crew in a filthy and unwholesome condition, cause the clothing and personal effects of such persons to be disinfected before allowing them to leave the vessel;

(5) may, in the case of undecked craft, direct the disinfection, or in special cases the destruction, of food-stuffs which have been exposed to contamination and are considered likely to be infected;

(6) may direct the disinfection and cleansing of any portion of the vessel that has actually been exposed to contamination or is in a filthy or insanitary condition, and may prohibit the discharge of bilge water or water ballast within port limits;

(7) may, in the case of cholera, direct the master to have the bilges and water tanks emptied and cleaned outside port limits.

PART VI-B.—PLAGUE.

Paris Convention, article 21.

19. In the case of infected vessels the following measures shall be taken:—

(1) All persons on board shall be medically examined as prescribed in regulation 9.

(2) All persons suffering from plague shall immediately be disembarked under the directions of the Health Officer and isolated in the camp or hospital, whether ashore or afloat, appointed by the local Government for the purpose.

(3) *If the port of arrival is free of plague* other persons shall also be disembarked, if possible, and shall either be kept under observation* during a period which shall not exceed five days dating from the arrival of the ship and which may or may not be followed by surveillance* of not more than five days' duration, or may, at the discretion of the Health Officer, be subjected to surveillance only during a period which shall not exceed ten days.

*"Observations" means isolation either on board the ship or in a sanitary station appointed for the purpose before the grant of pratique. Passengers under "surveillance" are not isolated; they receive pratique at once and are at liberty to proceed to their destinations, but the authorities at those places are informed of their coming and they are subjected to medical examination for such period as may be fixed in these rules.

(4) The Health Officer may permit such healthy members of the crew as are required to be present on board for the care and safety of the vessel to remain on board but subject to surveillance. Such persons shall not land, without the permission of the Health Officer, until pratique is given.

(5) Such soiled linen, wearing apparel and articles belonging to the crew and passengers as are, in the opinion of the Health Officer, infected, shall be disinfected.

(6) All parts of the vessel which have been occupied or frequented by plague patients shall be disinfected; and any other parts of the vessel that, in the opinion of the Health Officer, are infected, shall be disinfected.

(7) The rats on board shall be destroyed, either before or after discharge of the cargo, in either case as quickly as possible, and in any case within a maximum time of forty-eight hours in such manner as to avoid damage to merchandise and to the ship's plating and engines. In the case of ships in ballast this process must be carried out as soon as possible, before embarking cargo.

(8) Passengers arriving by an infected ship are entitled to obtain from the Health Officer a certificate showing the date of their arrival and the measures taken as regards themselves and their baggage.

20. When the measure prescribed in regulation *19* have been duly taken in respect of any vessel the Health Officer shall, by written order, grant pratique, provided that, if a case of plague or of illness suspected to be plague occurs on board subsequent to the grant of the above certificate, the certificate shall become invalid and the vessel again become subject to the requirements of the regulations regarding infected vessels. Paris Convention, article 33

21. In the case of suspected vessels the following measures shall be taken:— Paris Convention, article 22

(1) All persons on board shall be medically examined as prescribed in regulation 9.

(2) The crew and passengers may at the discretion of the Health Officer be subject to surveillance, the duration of which dating from the arrival of the ship shall not exceed five days. The crew may also during that period (or, if the vessel is in port for less than five days during the time she remains in port) be prevented from leaving the ship, except on duty on such conditions as the Health Officer may consider permissible.

(3) The destruction of rats may be ordered at the discretion of the Health Officer, and if ordered shall be carried out in the terms of regulation *19* (7).

(4) All soiled linen, wearing apparel and personal effects of the crew and passengers which are or are suspected to be infected shall be disinfected.

(5) All parts of the vessel which have been occupied or frequented by plague patients shall be disinfected; and any other parts of the vessel that, in the opinion of the Health Officer, are infected, shall be disinfected.

22. When the measures prescribed in regulation 21 have been taken in respect of any vessel, the Health Officer shall, by written order, grant pratique.

23. In the case of healthy vessels pratique shall ordinarily be given at once as provided for in regulation *17*, but the Health Officer may in his discretion, if special circumstances appear to him to require it, impose any or all of the following measures:— Paris Convention, article 23

(1) medical examination as prescribed in regulation 9;
(2) disinfection of soiled linen, etc., as prescribed in regulation *19* (5);
(3) destruction of rats as prescribed in regulation 19 (7); but the process of deratisation must not occupy more than 24 hours;
(4) he may also subject the passengers and crew to surveillance for a period not exceeding five days from the date of departure from the infected port.

Paris Convention, articles 29, 30

24. In exercise of the functions imposed upon him by regulations 9, 19 and *21*, the Health Officer shall

(*a*) attach due importance to the presence on board the vessel of a medical officer and to the provision of apparatus for disinfection by means of saturated steam and for the destruction of rats, and

(*b*) shall take into account the sanitary or insanitary and roomy or crowded condition of the vessels.

25. If in the case of any vessel making a passing call, the communication with the shore is restricted to the landing of passensers, mails or goods, the Health Officer may, in his discretion, enforce the provisions of regulation *19*, *21* or *23*, as the case may be, to such extent only as may in his opinion be necessary for the purpose of controlling the actual communication with the shore:

Provided (*a*) that any persons on board the vessel whom the Health Officer has reason to believe to be suffering from plague shall be landed and kept under observation:

Paris Convention, article 32

Provided also (*b*) that ships from an infected place that have been disinfected and have undergone adequate sanitary measures shall not, on their arrival in another port, be subjected to these measures a second time if no case has occurred since the disinfection was performed and if they have not called at an infected port. A ship which has merely disembarked passengers and their baggage or mails, without having been in communication with the shore, shall not be regarded as having called at the port.

Paris Convention, article 25

26. The Health Officer shall whenever requested furnish the master, the ship-owner or the ship-owner's agent with a certificate stating that measures of rat destruction have been carried out and giving the reasons why they were resorted to.

27. The foregoing regulations shall not prevent the transhipment, under restrictions to be imposed by the Health Officer in conformity therewith, of passengers, mails or goods between vessels which have not been granted pratique.

28. If any case of plague occurs among any group of persons who are being kept under observation, the patient shall be isolated or sent to a hospital, and the other persons shall continue to be detained and segregated as aforesaid for a period not exceeding five days from the date on which the group became free from plague. The clothes and effects of the patient and of such persons as have been in contact with the patient shall be disinfected at the discretion of the medical officer in charge.

29. The medical officer in charge of any place appointed for the isolation of any persons under these regulations may in his discretion, by written order, direct that any person who is kept there under observation shall be allowed to depart and shall be subject to surveillance.

30. If the system of surveillance to which any person is subjected on shore requires his daily attendance before a medical officer, the Health Officer may, by written order, exempt such person from such attendance on being satisfied that he may be relied upon to send in a prompt report if he should fall sick.

31. Persons subjected to surveillance shall submit to, and comply with, all directions as to medical supervision or otherwise, which may be given by written order of a medical officer appointed by the local Government in this behalf.

PART VI-C.—YELLOW FEVER.

Paris Convention, article 182

32. In the case of vessels which have started from or touched *en route* at a port infected with yellow fever, the following procedure shall be observed:—

(1) The vessel shall be anchored at sea not less than a mile from the land at low water. The visit of the Health Officer shall be made during the day as early as possible.

(2) Any person suffering from yellow fever if in the first four days of the disease, or if there is any doubt about the duration of the disease, shall be protected from the approach of mosquitoes by means of curtains, and, if possible, the sick should be treated on board for at least four days. All passengers in perfect health (with normal temperature, etc.) may be landed, special precautions

being taken to prevent mosquitoes having access to them, and shall be kept in quarantine for seventeen days in mosquito-proof houses.

(3) If it is necessary to land the sick, the most minute precautions to prevent mosquitoes reaching them shall be taken, including a mosquito-proof cabin on the launch, mosquito-proof ambulances and a mosquito-proof ward in an isolation hospital.

(4) The crew of the vessel should be required to sleep in airy places, preferably on deck, and should be protected by mosquito curtains.

(5) The ship shall be cleared of mosquitoes by the systematic fumigation,* under efficient supervision, of every cabin, store-room, alley-way and hold.

(6) All water in which mosquitoes could breed should be emptied into the sea and all drains flushed by means of a hose. The bilge should be pumped out or oiled. The drinking water tanks should be emptied to get rid of larvæ, fresh water being taken and the tanks completely filled so as to drown any adult mosquitoes which may be present in them.

(7) Provided, if no case of yellow fever has occurred during the voyage, only such of the above measures shall be carried out as are considered by the Port Health Officer necessary in the circumstances of the case.

(8) No ship shall leave the anchorage for the purpose of taking up her berth until the measures described in paragraphs (5) and (6) have been carried out.

PART VI-D.—SLEEPING SICKNESS.

33. In the case of a vessel having on board a person suffering, or suspected to be suffering, from sleeping sickness, the person or persons shall not be permitted to land without the specific written permission of the Health Officer, *who* may, pending the receipt of written instructions from the local Government, permit the landing of such persons only if arrangements can be made for their strict isolation on shore.

Note.—In suspicious cases the Health Officer should make a careful examination for enlargement of the lymphatic glands, particularly those in the triangles of the neck. The pulse rate should also be taken. To confirm the diagnosis gland-juice should be taken and examined for the presence of try-panosomes.

34. In the case of a vessel arriving from the East Coast of Africa within the limits of Port Sudan and Durban or from other localities declared to be infected, the procedure prescribed by rule 2, shall be complied with and the crew or passengers, etc., shall be medically inspected in accordance with rule 9.

PART VI-E.—JIGGER.

35. In the case of a vessel having on board any person or persons suffering from jigger,

(1) the Health Officer shall carefully examine every person on board, and any person or persons found to be suffering may be removed to hospital for treatment;

(2) the clothes of infected persons shall be disinfected, and the Health Officer may, in his discretion, order the disinfection of the clothes, bedding, etc., of all persons on board;

(3) any part of the vessel likely to harbour jigger fleas shall be thoroughly washed with a watery solution of kerosine oil emulsion;

(4) the ballast of such vessel, if of earth or sand, shall not be landed without the permission, in writing, of the Health Officer, who, if he considers it necessary, may order that it shall be discharged into the sea or river at such places as shall be appointed for the purpose by the local Government.

* Sulphurous acid is probably the best gas to use.

PART VII.—GENERAL.

Vessels.

36. The master of any vessel coming under these regulations shall comply with all directions which the Health Officer may consider necessary under the foregoing rules.

37. The master of any vessel who may object to submit to the foregoing regulations may put out to sea again, provided that objection has been taken before there has been any communication, except by signal or through the port authorities, between such vessel and the shore or with any other vessel in port. Goods may be landed from such vessels after precautions have been taken to isolate the ship, crew and passengers and on condition that such information as the Health Officer may require regarding the mortality among rats is duly supplied. Passengers may be disembarked at their own request on condition that they submit to all the measures prescribed by the local authorities.

38. In the event of any vessel putting back to sea the Health Officer shall intimate the fact by telegraph to the next port of call.

Persons.

39. All persons removed to hospital or kept under observation at any place shall obey and conform to the rules, regulations and orders for the time being in force at such hospital or place and shall be liable to pay all such charges for food as for the time being may, under the sanction of the local Government, be made against them.

40. When a suspected case of any infectious disease is removed from a vessel at an Indian port, the Health Officer shall report the confirmation or otherwise of the diagnosis, by telegraph, to the Health Officer of the next port of call if that port is in British India, Ceylon or the Straits Settlements. In other cases a note shall be made on the bill of health stating the nature of the suspected infectious disease and the precautions taken in connection therewith.

Dead Bodies.

41. Disposal shall be as follows :—

(1) If death occurs on board a vessel before entering port limits, the body shall, except there are special reasons to the contrary, be buried at sea in not less than nine fathoms of water, in such manner as shall secure its immediate sinking and remaining below the surface.

(2) If death occurs during the day on board a vessel within the port limits the ensign and house flag, if there is one, are to be immediately lowered half-mast and kept in such position from sunrise till sunset as long as the body remains on board. If death occurs between sunset and sunrise, one red light is to be hoisted at the peak, half-mast high.

(3) The master of the vessel shall cause the death of a person on board to be intimated forthwith to the police, either by letter or otherwise, and shall forward to the Port Officer a written report as soon as possible after the occurrence, in which all the circumstances attending the death must be fully detailed.

(4) No dead body shall be removed from a vessel within port limits without the permission of the police, which shall not be given until the Health Officer has certified *either*—

(*a*) *that the death is not due to infectious disease, or*

(*b*) *that, in the case of infectious disease, the Port authorities have given permission for burial on shore.*

If the Port authorities in consultation with the Health Officer decide that burial on shore cannot be permitted, the body must be buried at sea in such manner as the Health Officer may direct.

Disinfection.

42. All disinfection prescribed by these regulations shall be carried out, unless otherwise specifically provided for, in the manner prescribed in the Appendix hereto.

PART VIII.—VESSELS LEAVING PORTS IN BRITISH INDIA DECLARED BY THE PORT BOARD OF HEALTH TO BE INFECTED WITH ANY CONATGIOUS OR INFECTIOUS DISEASE, FOR PORTS *in or* BEYOND INDIA.

43. No vessel shall leave any port in British India *which has been declared to be infected with any contagious or infectious disease* for any port in or beyond India until—

(1) all persons sailing by the vessel, whether as passengers or as members of the crew, have been medically examined by the Health Officer. Paris Convention, article 46.

(2) in the case of plague

(*i*) all persons sailing by the vessel, either as passengers or as members of the crew (except onward bound passengers who have not landed and members of the crew, *who have not landed or* who have not newly joined, who may be examined on board), have been medically examined by the Health Officer on shore by day as shortly as possible before embarkation; Paris Convention, article 46.

(*ii*) all merchandise or articles of any sort which the Health Officer may consider to be infected with plague have been disinfected on shore previous to embarkation; Paris Convention, article 46.

(*iii*) all clothing, bedding, and infected articles belonging to Asiatic and African members of the crew, not being officers, engineers or doctors, to deck and fourth class passengers, and to third class passengers not entitled to cabin accommodation, which the Health Officer may consider to be infected with plague, and, if the Health Officer thinks fit so to direct, all clothing, bedding and infected articles belonging to passengers of any class higher than the third and of any members of the crew, have been disinfected on shore by day as shortly as possible before being placed on board;

(3) the Health Officer has given to the master of the vessel a bill of health stating that the medical examination and disinfection prescribed by this regulation have been carried out.

In the case of any disease other than plague the Health Officer may, in his discretion, enforce the provisions of clauses 2 *(ii)* and 2 *(iii)* above:

Provided that, if the vessel is only making a call at the British Indian port in question, the medical examination and disinfection prescribed by this regulation shall be made only in the case of persons joining the vessel there and articles belonging to them, unless there is communication between the vessel and the shore. The Health Officer shall decide, for the purpose of this proviso, what constitutes communication between the vessel and the shore.

44. It shall be open to the Consular representative interested in any vessel to be present, if he so desires, at the medical examination and disinfection prescribed by regulation *43*.

45. If any vessel does not leave port *within 24 hours after* the medical examination made under regulation *43*, she shall not leave until—

(a) a fresh medical examination of the passengers and crew has been made under that regulation, and

(b) a fresh bill of health has been given to the master under that reglulation:

Provided that such fresh examination may be conducted on board the vessel, whether or not there has been communication with the shore since the previous examination was made.

46. If, after a bill of health has been given to the master of any vessel and before the vessel leaves the port, any cargo or goods of any kind be placed on or taken off the vessel *except in such manner as may be directed by the Health Officer*, the vessel shall not leave the port until—

(*a*) such further medical examination and disinfection as the Health Officer may consider necessary have been made under regulation *43*, and

(*b*) a fresh bill of health has been given to the master under that regulation:

Provided that such further examination and disinfection may be conducted on board the vessel.

47. (1) After a bill of health has been given to the master of any vessel, no person except the pilot *or person authorised by the Health Officer* shall be permitted to embark on the vessel unless he has been medically examined by the Health Officer as prescribed in regulation *43.*

(2) If any such person is permitted to embark, the Health Officer shall amend the bill of health accordingly.

48. Port-clearance shall not be granted for any vessel unless and until the master produces the bill of health prescribed by the foregoing regulations:

Provided that, at any port where, in the opinion of the local Government, local conditions render this relaxation advisable, the Port Officer may grant port-clearance for any vessel on receiving from the agents of the vessel a written guarantee that a duplicate of such bill of health, signed by the Health Officer, will be furnished by them to him within forty-eight hours.

49. (1) If the Health Officer considers that any passenger is suffering from, or is in the incubation stage of, any infectious or contagious disease he shall prevent such passenger and his or her relatives and attendants from embarking or sailing; and their baggage and personal effects shall not be allowed on board the vessel, and if already placed on board, shall be removed as early as possible.

(2) For the purposes of this regulation, the term "relatives" shall mean such persons as have been living with, or have been, in the opinion of the Health Officer, in dangerous communication with the suspected passenger.

50. (1) If the Health Officer considers that any member of the crew of the vessel is suffering from, or is suspected to be in the incubation stage of, any infectious or contagious disease—

(*a*) he shall prevent such member from re-embarking on such vessel and shall refuse to give a bill of health until the baggage and personal effects of such member have been removed from the vessel and such parts of the vessel as have been occupied or frequented by such member have been disinfected; and

(*b*) the baggage and personal effects of such persons as were in immediate contact with such member of the crew shall be disinfected, and the names of such persons shall be given to the medical officer or master of the vessel for supervision on the voyage.

(2) All action taken under clause (1) of this regulation for the disinfection of a vessel shall be noted in the bill of health.

51. Any person who is prevented by the Health Officer under the foregoing regulations from embarking or sailing may be removed to and kept at a hospital or kept under observation; or, if any such person gives a genuine address, he may, at the discretion of the Health Officer, be subjected to surveillance for a period not exceeding twelve days.

Paris Convention, article 47.

52. At all ports declared to be infected with plague proper measures shall be taken to prevent rats obtaining access to vessels (Appendix B).

(See Regulation 42.)

APPENDIX A.

INSTRUCTIONS FOR DISINFECTION.

Paris Convention, article 117 (note)

1. Personal effects, such as rags, bandages, papers and other articles without value, which, in the opinion of the Health Officer, are deemed likely to carry infection, should be destroyed by fire.

2. Under-clothing, bedding, wearing apparel, mattresses, carpets, etc., which are contaminated or *suspected*, and other articles to be disinfected, should be exposed for 15 minutes to saturated steam—under pressure if possible—at a temperature of not less than 100° C. (212° F.), care being taken that the steam shall reach all parts of each article to be disinfected.

3. *Disinfecting solutions*—

(*a*) Solution of corrosive sublimate of 1 part in 1,000 with the addition of 2 parts in 1,000 of hydrochloric acid or 160 grains of chloride of soda in one gallon. The solution should be coloured with aniline dye or indigo. It should not be placed in metal vessels.

(*b*) A 5 per cent. solution of pure crystallized carbolic acid, or 5 per cent. of crude commercial carbolic acid free from tar oils in a warm solution of soft soap.

(*c*) Freshly prepared lime-wash.*

4. *Special instructions to be observed in the employment of disinfecting solution.*—The linen, clothing and articles soiled by the excreta of patients should be soaked in the solution of corrosive sublimate. The solution of pure carbolic acid and the solution of soap and carbolic acid are equally suited to the purpose. The articles should remain in the solution for at least six hours.

Articles which cannot be subjected to the temperature of 212° F. without injury, as leather goods, wooden articles stuck together with glue, felt, velvet, silk, etc., should be washed with a disinfecting solution; coins can be disinfected with the solution of soap and carbolic acid. Persons engaged in nursing the sick should wash their hands and faces with one of the carbolic solutions. The carbolic solutions will be useful more particularly for disinfecting articles such as metal, or instruments, which can neither be subjected to a temperature of 212° F. nor placed in contact with corrosive sublimate. Slaked lime is particularly recommended for disinfecting excreta. Expectorated matter should be burnt.

5. *Disinfection of ships on which plague has occurred among human beings or rats.*—All rats on board shall be destroyed by means of sulphurous anhydride. The cabins, etc., occupied by the sick or those suspected to be suffering from plague shall, at the discretion of the Health Officer, be treated with a solution of corrosive sublimate and thoroughly cleansed with soap and water. In the case of pneumonic plague preliminary disinfection with corrosive sublimate solution shall be invariably carried out.

6. *Disinfection of the hold of an infected ship.*—The bilge-water shall be pumped out, and the hold washed with sea water, a sufficient quantity of a solution of corrosive sublimate being subsequently thrown in at the discretion of the Health Officer. The bilge-water shall not be pumped out when the vessel is in harbour without the written consent of the Health Officer.

* The lime-wash should contain 20 per cent. of lime, and may be prepared as follows:—Take 2 pounds of good quick-lime and slake it by moistening it gradually with about half a pint of water When the operation is completed the resulting powder must be kept in an air-tight vessel in a dry place

For use the quantity of slaked lime obtained from 2 pounds of quick-lime should be placed in a convenient vessel and water added to make one gallon

APPENDIX B.

MEASURES TO BE ADOPTED TO PREVENT RATS OBTAINING ACCESS TO VESSELS.

1. There shall be a space of at least three feet between any part of the vessel and the wall of the dock or wharf.

2. All ropes and hawsers connecting the vessel with the dock or wharf shall be furnished with a circular concave-convex rat-guard at least four feet in diameter fitting tightly, with the concavity towards the wharf, on the rope or hawser, and so fixed that no part of the margin of the guard shall be less than 24 inches from the rope or hawser.

3. To prevent rats reaching the ship by means of a gangway, as few gangways shall be used as possible; all gangways shall be raised at night; and a watchman shall be placed on each gangway during the day from the time the gangway is lowered until it is raised.

4. A responsible person shall be deputed by the local Government to ensure these measures being applied immediately the vessel is berthed.

The examination will be *ipso facto* vitiated if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements with the candidates in regard to the *place* and *hour* of examination.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship, if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

*This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government.

2. The candidate should apply to an Accountant-General not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates and registration form duly filled in, and must be forwarded by him, not direct to the Principal, but through the Accountant-General.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Accountant-General (including Government Examiner of Railway Accounts and Examiner of Accounts, Lower Ganges Bridge Project), qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Accountant-General concerned or at the College.

It will rest with the Accountant-General (including Government Examiner of Railway Accounts and Examiner of Accounts, Lower Ganges Bridge Project) to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination, or whether his application should be rejected. The Accountant-General or the other officers referred to will then forward to the Principal, for registration, the names of the accepted candidates, together with their registration statements, which should be signed by the Accountant-General. The registration statements should be carefully preserved by the Principal. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College, or at the office of the Accountant-General. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that, in making appointments, preference will be given to qualified persons who are already employed in the Department.

7. Passed candidates should apply, not to the Principal of the College, nor to the Comptroller-General, but direct to the Accountant-General or Government Examiner of Railway Accounts in the province or railway under whom they may desire to be employed.

8. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

9. Candidates for the 4th grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination of the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Comptroller and Auditor-General.

Any vessel approaching a defended port in the United Kingdom when searchlights are being worked, and finding that they interfere with her safe navigation, may make use of the following signals, either singly or combined :—

(*a*) By flashing lamp, *four short* flashes followed by *one long* flash,
(*b*) By whistle, siren, or fog-horn, *four short* blasts followed by *one long* blast.

Whenever possible, both flashing lamp signals and sound signals should be used.

On these signals being made, the searchlights will be worked so as to cause the least inconvenience, being either doused, raised, or their direction altered.

The signals should not be used without real necessity, as unless the vessel is actually in the rays of the searchlight it is impossible to know which searchlight is affected.

1. The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in June. The examination will be conducted either at the College, or by an Accountant-General (including Government Examiner of Railway Accounts and Examiner of Accounts, Lower Ganges Bridge Project), in Bengal, Eastern Bengal and Assam and Burma only. The examination will be *ipso facto* vitiated if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements with the candidates in regard to the *place* and *hour* of examination.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship, if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

*This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government.

2. The candidate should apply to an Accountant-General not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates and registration form duly filled in, and must be forwarded by him, not direct to the Principal, but through the Accountant-General.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age, baptismal or of birth (not required, if the candidate is already in permanent Government employ).

(3) Certificate that the application is in the candidate's hand-writing.

(4) Registration statement containing the following information :—

(*a*) Name in full.

(*b*) Father's name.

(*c*) Nationality or class, *i.e.*, European, Anglo-Indian or Indian, of candidate; and, if Indian, caste or tribe.

(*d*) Date of birth.

(*e*) Place of birth.

(*f*) Present address.

(*g*) Examinations passed.

(*h*) Thumb mark of candidate, left hand, to be made in the presence of a responsible person who knows candidate.

(*i*) Signature and address of above-mentioned witness.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Accountant-General (including Government Examiner of Railway Accounts and Examiner of Accounts, Lower Ganges Bridge Project), qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Accountant-General concerned or at the College.

It will rest with the Accountant-General (including Government Examiner of Railway Accounts and Examiner of Accounts, Lower Ganges Bridge Project) to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination, or whether his application should be rejected. The Accountant-General or the other officers referred to will then forward to the Principal, for registration, the names of the accepted candidates, together with their registration statements, which should be signed by the Accountant-General. The registration statements should be carefully preserved by the Principal. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College, or at the office of the Accountant-General. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that, in making appointments, preference will be given to qualified persons who are already employed in the Department.

7. Passed candidates should apply, not to the Principal of the College, nor to the Comptroller-General, but direct to the Accountant-General or Government Examiner of Railway Accounts in the province or railway under whom they may desire to be employed.

8. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

9. Candidates for the 4th grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination of the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Comptroller and Auditor-General.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College not later than 30 days previous to the examination; the application to be accompanied by the fee of rupees ten, and the Registration statement prescribed in rule 2 (4).

Any vessel approaching a defended port in the United Kingdom when searchlights are being worked, and finding that they interfere with her safe navigation, may make use of the following signals, either singly or combined:—

(*a*) By flashing lamp, *four short* flashes followed by *one long* flash,
(*b*) By whistle, siren, or fog-horn, *four short* blasts followed by *one long* blast.

Whenever possible, both flashing lamp signals and sound signals should be used.

On these signals being made, the searchlights will be worked so as to cause the least inconvenience, being either doused, raised, or their direction altered.

The signals should not be used without real necessity, as unless the vessel is actually in the rays of the searchlight it is impossible to know which searchlight is affected.
